

ELIGIBILITY:

Elementary students living more than one (1) mile from the school or bus stop are eligible for transportation services.

Secondary (middle and high) students living more than one and one half (1.5) miles from the school or bus stop are eligible for transportation services

These distances are measured from the end of the school property line/bus stop to the property line of the student home unless the property does not border a state, county, or city road. In this case, the distance is measured to the end of the state, county, or city road maintenance.
