Policy Statement

It is the responsibility of the Board of Education to adopt official names for county public school facilities, portions of facilities, and properties. The Board of Education recognizes the importance of outstanding contributions and community service in an effort to support education. Before proceeding with any naming, all circumstances surrounding the naming must be carefully considered, including the overall benefit to the school system and the school or facility, whether the name is and will continue to be a positive reflection on the ACPS, and whether the name comports with the purpose and mission of the ACPS.

The Board may issue a statement of need or consider a proposal to enhance the school system through the naming of facilities, properties or portions of facilities or properties in honor of persons (living or deceased) or entities such as a business or foundation in exchange for a monetary contribution as determined by the Board of Education.
